TECH54

TECHNOLOGY TO OWN THE EXTREMES

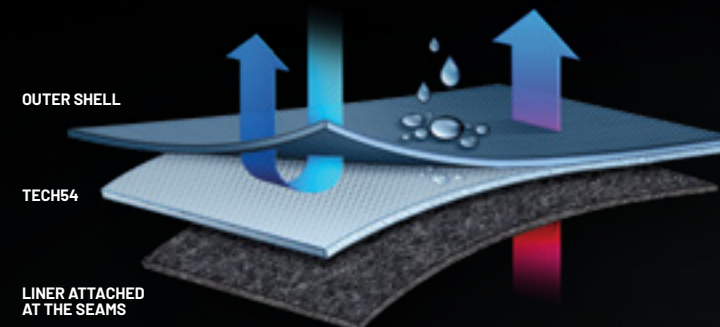

ELEVATE YOUR RIDE WITH EXCLUSIVE TECH54 RIDING GEAR DESIGNED TO KEEP YOU WARM AND DRY.

Our Apparel Center of Excellence developed TECH54—a waterproof, breathable membrane featured in every Polaris jacket, bib and monosuit. This exclusive technology allows perspiration to escape and keeps water out, so no matter how you ride, or where you ride, you stay dry, warm and comfortable.

WATERPROOF/BREATHABLE

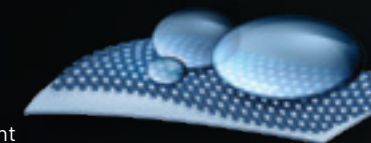

TECH54 is our single-layer bonded laminate technology that brings waterproof breathability and riding comfort to a new level in every Polaris jacket and bib.

DWR

RESIST MOISTURE

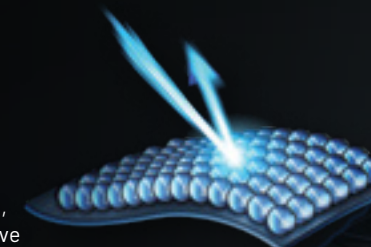

Every Polaris jacket and bib is treated with a DWR (Durable Water Repellent) coating to prevent precipitation from saturating the outer fabric, so your gear doesn't get soggy. The DWR coating causes water to bead up and run off, keeping you comfortable and dry.

3M Scotchlite[™] Reflective Material

RIDE SAFER

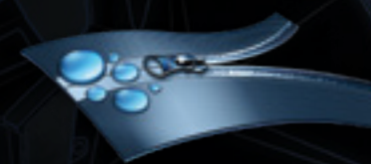

Proven in every weather condition, patented 3M[®] Scotchlite[®] Reflective Material is placed meticulously on each garment and nighttime tested to provide visibility from every angle.

YKK[®] ZIPPERS

STAY PROTECTED

Quality construction you can trust.

3M Thinsulate[®] INSULATION

BE WARMER

3M[®] Thinsulate[®] Insulation is zonally mapped on insulated apparel to provide extra insulation in high wind exposure areas.

HOW IT WORKS TO ELEVATE YOUR RIDE.

5k/5k, 10k/10k OR 20k/20k

WATERPROOF

The first number (5k, 10k or 20k) refers to the waterproof rating.

BREATHABILITY

The second number (5k, 10k or 20k) refers to how much water vapor the material can expel through the outerwear to release heat—and keep you dry from the inside.

DIFFERENT RATINGS FOR DIFFERENT RIDES

Choose your TECH54 rating based on the weather conditions and your level of exertion.

5k/5k: best for colder and drier conditions and moderate activity

10k/10k: best for wet riding conditions and high-activity riding

20k/20k: best for extremely wet riding conditions and the most aggressive riding

MEN'S & WOMEN'S LAYERING

Anyone can layer up. But the key to staying warm and comfortable is picking the right layers for the conditions. Start with our moisture-wicking base layers to help maintain proper body temperature, then add a middle insulating or heated layer depending on the conditions.

POLARIS HEATED APPAREL

The Polaris Heated Apparel lineup includes the Heated Vest, Heated Base Layers, and a Heated Glove Liner for both men and women. Easily adjust between 4 heat settings for changing weather conditions.

FIDLOCK® MAGNETIC TECHNOLOGY

An easy-on and easy-off magnetic closure device that delivers a quick, secure helmet strap closure on select 509 helmets.

3M® THINSULATE® INSULATION

3M® Thinsulate® Insulation is warm yet lightweight, powerful yet thin. It helps trap body heat while allowing moisture to escape.

DOT & ECE 22.05 CERTIFIED

The Department of Transportation (DOT) standard is enforced by the National Highway Traffic Safety Administration (NHTSA.) For a helmet to be DOT-certified, it must pass a series of impact tests.

The Economic Commission for Europe (ECE) standard, R 22.05, is the most common helmet standard used internationally, as it is recognized by over 50 countries. To be ECE 22.05 certified, the helmet must pass a series of rigorous tests by an independent third-party lab.

3M® SCOTCHLITE® REFLECTIVE MATERIAL

Patented 3M® Scotchlite® Reflective Material provides nighttime visibility from every angle.

YKK® ZIPPERS

The YKK® Fastening Products Group is trusted worldwide for impeccable production standards and thorough quality control processes for slide fasteners, plastic hardware, hook-and-loop fasteners, webbing tapes and snap-and-button products.

TECH54

A waterproof and breathable membrane bonded to the shell fabric to block moisture from entering while allowing vapor moisture to escape from the inside.

SUPERIOR DURABLE WATER REPELLENCY

A Superior DWR coating causes water to bead up and run off, preventing precipitation from saturating the exterior of an outerwear piece.

BOA® LACING SYSTEM

The BOA® lacing system is easier to get on and off than traditional lace-up boots. Simply push to engage, turn to tighten and pull for quick release.
